Dave's Auto Care

8635 SE 17th Ave
Portland, OR 97202

Hi,

I build websites for local Portland shops that do not have one yet, and I noticed Dave's Auto Care does not have a site. So I built you one already, no charge, to look at first. You can see it below.

It is built to get your phone ringing, not just to look nice.

If you want it live on your own domain, it is \$499 one time to set up, plus \$39 a month for hosting and any edits. Call me and I will have it live within a day.

No obligation either way. The preview is yours to look at regardless of what you decide.

Harvey's Auto Service

9221 Holman Rd NW
Seattle, WA 98117

Hi,

I build websites for local Seattle shops that do not have one yet, and I noticed Harvey's Auto Service does not have a site. So I built you one already, no charge, to look at first. You can see it below.

It is built to get your phone ringing, not just to look nice.

If you want it live on your own domain, it is \$499 one time to set up, plus \$39 a month for hosting and any edits. Call me and I will have it live within a day.

No obligation either way. The preview is yours to look at regardless of what you decide.

Andy's Auto Repair

7919 Aurora Ave N
Seattle, WA 98103

Hi,

I build websites for local Seattle shops that do not have one yet, and I noticed Andy's Auto Repair does not have a site. So I built you one already, no charge, to look at first. You can see it below.

It has your hours, your specialties, and a big call button, built for someone searching auto repair Seattle on their phone to call you instead of the next shop on the list.

If you want it live on your own domain, it is \$499 one time to set up, plus \$39 a month for hosting and any edits. Call me and I will have it live within a day.

No obligation either way. The preview is yours to look at regardless of what you decide.

Pipes Are Us

1885 E Griffith Way
Fresno, CA 93726

Hi,

I build websites for local Fresno shops that do not have one yet, and I noticed Pipes Are Us does not have a site. So I built you one already, no charge, to look at first. You can see it below.

It has your hours and your services, with a big call button built to get people on the phone with you instead of the next plumber on Google.

If you want it live on your own domain, it is \$499 one time to set up, plus \$39 a month for hosting and any edits. Call me and I will have it live within a day.

No obligation either way. The preview is yours to look at regardless of what you decide.
